# GENE THERAPY JEOPARDY!

for **TeamBonding** powered by the training arcade®

AN INTERACTIVE GAME FEATURING THE UNDERLYING  
PRINCIPLES OF ONGOING GENE THERAPY RESEARCH

## EXPAND YOUR GENE THERAPY RESEARCH KNOWLEDGE IN A GAME PRESENTED BY BIOMARIN

Brandywine Valley Hemophilia Foundation and BioMarin

invite you to join a fun new experience to make the science behind gene therapy research memorable and entertaining. Whether you're already a whiz or are just starting to explore, you and your friends can learn together and earn points to win bragging rights. Will you become the next Jeopardy! *gene-ius*?

Hemophilia Gene Therapy  
BioMarin

### IT'S FUN, EDUCATIONAL, AND EASY TO PLAY!

Buzz in answers to clues on the topic of gene therapy research across 4 unique categories, including **"Nuts and Bolts"** and **"Knowledge Is Power."** You'll have a chance to wager your points against friends in Final Jeopardy! to be the next champion. Get a head start learning by visiting [HemDifferently.com](https://www.hemdifferently.com).

This educational game is the newest addition to the *Gene Therapy Learning Academy*, a series of programs and resources from HemDifferently by BioMarin. We're continually expanding our offerings with engaging events and tools to help you learn about gene therapy research.

*Many gene therapies for hemophilia are being studied in people to determine if they are safe and effective. Our exhibit space will not focus on any commercially available products or specific gene therapies being researched for hemophilia A or B.*
